

Psychology Department Policy on Alcohol Purchase

The department cannot reimburse anyone for any purchases of alcohol for department functions. The dean's office and controller's office simply will not allow any such reimbursements to be sent through.

Also, the department cannot pay for alcohol through petty cash. We typically do not have enough on hand and need what we have for other things.

Therefore, please be aware that all alcohol purchases for any department event need to be made as individuals' personal contributions to the event. If you want there to be alcohol, you need to be willing to chip in a few dollars to make it happen.

Any serving of alcohol at any event is, of course, subject to the usual Lehigh regulations and laws regarding age requirements, responsibility of the host for limits on consumption, the presence of a bartender for events on campus, etc., etc.
